

DT09 Rec'd PCT/PTO 18 AUG 2004

REMARKS

In the IPER mailed on June 3, 2004, the Examiner indicated that the description was not in conformity with the claims as required by Rule 5.1(a)(iii) PCT in that there was no discussion in the description of reference D1 (US 5,167,516) and claims 4 and 6 depended from canceled claims. With this preliminary amendment, page one of the specification and claims 4 and 6 have been amended.. In addition the drawings have been amended so that they are now in a formal version and figures 4 and 6 have had proper cross hatching added which shows a non- conductive material.

Please enter these changes prior to this application being considered by the Examiner in the National Phase.

Respectfully submitted,

MOLEX INCORPORATED
